

# Career Path Management Program

ASSA ABLOY

The global leader in door opening solutions

Academy  
ASSA ABLOY

ASSA ABLOY Academy is your best resource for door and hardware industry training online. With over 60 classes, the Academy offers a wide range of instruction from product-specific training to general door opening knowledge. And now, Career Path Management is available to help you set learning curriculum for your employees.

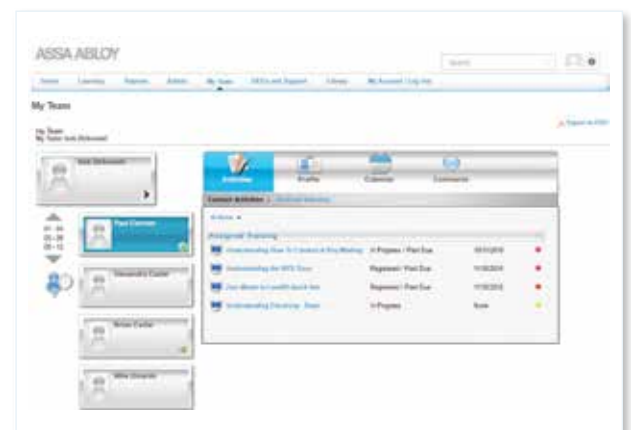

## What is Career Path Management?

This program allows managers to assign individually-selected courses based on employee needs, with due dates for each assignment. The Manager Dashboard provides a means to monitor completion dates and review progress and the My Team page allows the management of employee profiles, employee transcripts and course assignment. Automatic emails are generated to the Manager and Employee for Assigned, Completed or Uncompleted Training.
